Abstract of JP 2003339000 (A)

PROBLEM TO BE SOLVED: To make it possible to view one unit of contents by a video display device or a server by using simple operation and to utilize the server for other purposes without considering the transfer of image files to the video display device. ;

SOLUTION: The disclosed contents utilization method comprises a 1st step for storing contents in the server 1 on a date specified by a user, a 2nd step converting the quality of the contents by the server 1 in accordance with the storage capacity or display performance of a storage part and a display unit constituting a PDA 2, and a 3rd step for transferring the contents whose quality has been converted from the server 1 to the PDA 2 after checking connection between the server 1 and the PDA 2. ; COPYRIGHT: (C)2004,JPO
